

**St. David Unified School District**  
*Collaboration \* Positivity \* Preparedness*

August 13, 2021

St. David Community, Parents, and Students:

Thank you for helping us navigate through this last school year. It was truly a team effort. Academically as well as with our extra-curricular activities, St. David students had a very successful school year. Our teachers and support staff played a big role in the successes of our students. As we continue to have successes in and out of the classroom, it is important to celebrate these accomplishments with our students.

As we begin a new school year, we are all excited for the students to be back from their summer break. We would like to welcome our many new students and new staff this year. St. David Schools continues to grow as more and more people learn about the opportunities that we provide. Individually, as well as a staff, we will continue to strive for growth and improvement to best help our St. David students.

If any current or future parents would like to see the school and the campus, please let us know. You are more than welcome to walk the campus. I am confident you will see and feel the positive school climate that our students and staff are striving to create. Contact the office and we can accommodate your request to see our campus.

Thank you again for all your support for St. David Schools.

KYLE HART
